

# INSTRUCTION MANUAL

**2 PEOPLE REQUIRED**

***Please keep this manual and product code number for future reference  
and for ordering replacement parts if necessary.***

---

## **GENERAL INSTRUCTIONS**

- Read this manual carefully and completely before proceeding.
- It is recommended that you wear safety glasses at all times during the installation.

## **INSTALLATION OVER CERAMIC TILES**

- If your shower door is to be installed over ceramic tiles, the tiles should lay completely under the wall jamb.
- Silicone should be used to seal the gap where the ceramic tiles meet the fixed panel.

## **NOTICE**

- Caulking: no sealant is required inside the shower, unless otherwise stated.
- Some models are equipped with clear sealing gaskets.

## **CARE FOR YOUR SHOWER DOOR**

- Never use scouring powder pads or sharp instruments on metal pieces or glass panels.

An occasional wiping down with a mild soap diluted in water is all that is needed to keep the panels and aluminum parts looking new.

- We recommend wiping the glass panels with a squeegee after each use.
